ART AND DESIGN, B.A.

About the Program

Art and Design Department

Upton Hall 402

(716) 878-6032

<http://artdesign.buffalostate.edu/>

The BA in Art and Design degree is a studio focused liberal arts degree option which allows the art student the opportunity to discover and explore various media for their creative expression. Starting with a 27-credit foundation studies program, students are immersed in courses in drawing, two- and three-dimensional design, 2D and 3D digital design, and art history.

Students will select a four-course sequence in either ceramics, metals/jewelry, painting, or photography to further develop and refine their concepts and skills in both traditional and contemporary studio practices. Electives in design, fine art, and art education courses provide breadth. No entrance portfolio is required for admission of incoming students (including both Freshman and Transfer students) who choose the BA-AS-ARD ART.

Students will enjoy the opportunity to display their strongest work in exhibitions and during special events. The Art and Design Department reserves the right to temporarily retain students' work for official purposes, such as exhibitions, program display, special events, and recruitment, etc.; and to use images of the students and/or their work for publicity, documentation, and recruitment.

Students are expected to assume the costs of materials used in courses. Some studio courses may have an additional charge for materials used in class. Students enrolled in a studio course are expected to work a minimum of two additional hours each week outside of class for each credit granted for that class and the hours gradually increase as the student progresses in the concentration.

Admission Requirements

Any matriculated student in good academic standing may declare this program.

Learning Outcomes

Students will demonstrate:

1. basic knowledge and understanding of materials and techniques in art.
2. basic ability to analyze works of art in terms of their subject, style, and intention, and a resulting development of visual sensitivity.
3. understanding of the cultural and historical context of art through time.
4. basic understanding of the creative process.
5. basic ability to write about works of art.

Program Requirements

General Education 23 Requirements

33 credit hours 33
